

SOUTHTOWN FOUNDATION's *Tulips on Troost* seeks to change the way people in Kansas City think about Troost Avenue. Tulips, and the flower gardens that they inspire, are indicative of new beginnings and opportunities for all of Kansas City. The *Tulip Project's* original goal of planting 10,000 tulips has taken on metro-wide proportions and is now aimed at planting **1,000,000 tulips** along the historic avenue, which dissects Kansas City's metropolitan town center.
